Sinusoidal Signal  $x(t) = A\cos(\omega_0 t + \phi)$ 

(a) Determine numerical values for A,  $\omega_0$  and  $\phi$  with  $-\pi < \phi \le \pi$ .

0.05

0

The above graph is a plot of a sinusoidal signal  $x(t) = A\cos(\omega_0 t + \phi)$ .

(b) By a suitable choice of delay 
$$t_d$$
, we can shift  $x(t)$  to obtain the new signal

 $y(t) = x(t - t_d) = A\cos(\omega_0 t)$ (1)There are an infinite number of values of  $t_d$  that satisfy Equation (1). Give an equation for these values. If you cannot write the general expression, give at least **two** different values of  $t_d$ .
